PREFACE.

In accordance with our usual custom we now present No. 8, of the regular series of the BROOKLINE DIRECTORY to our patrons, with the confidence of its welcome reception by them, as well as by the public generally.

We have taken the usual pains to have all information furnished made as correct and reliable as possible, and trust we have succeeded in so doing.

Some means should be devised by which every building used for any purpose should have a number placed upon it, unless it is on some country road where it would be nearly impossible to have it done, as a number is a great assistance in finding a house and the person in it.

As places grow in importance and population, the directory increases in value as a book of reference. A good directory is a great benefit to a place, not only to the citizens, but to strangers and visitors who are constantly referring to its pages for information of some kind.

A directory of a city or town is not necessarily limited to that place, as we have orders from many other places for our books.

We wish especially to call the attention of persons using the directory, to the importance of knowing the precise spelling of a name, before looking for it, as names pronounced the same, but spelled in various ways, will appear on different pages, and at quite a distance from each other.

Our canvass shows an increase of names over that of last year, as will be seen by the figures given below:

Names in 1883	2,941
Names in 1881	2,749
Increase over last edition, . . .	202

Our agents have received the usual courteous attention from all with whom they have come in contact while obtaining the information for this number, and with many thanks for the same

We remain, very respectfully,

W. A. GREENOUGH & CO.,

AUGUST, 1883. *Editors and Publishers.*

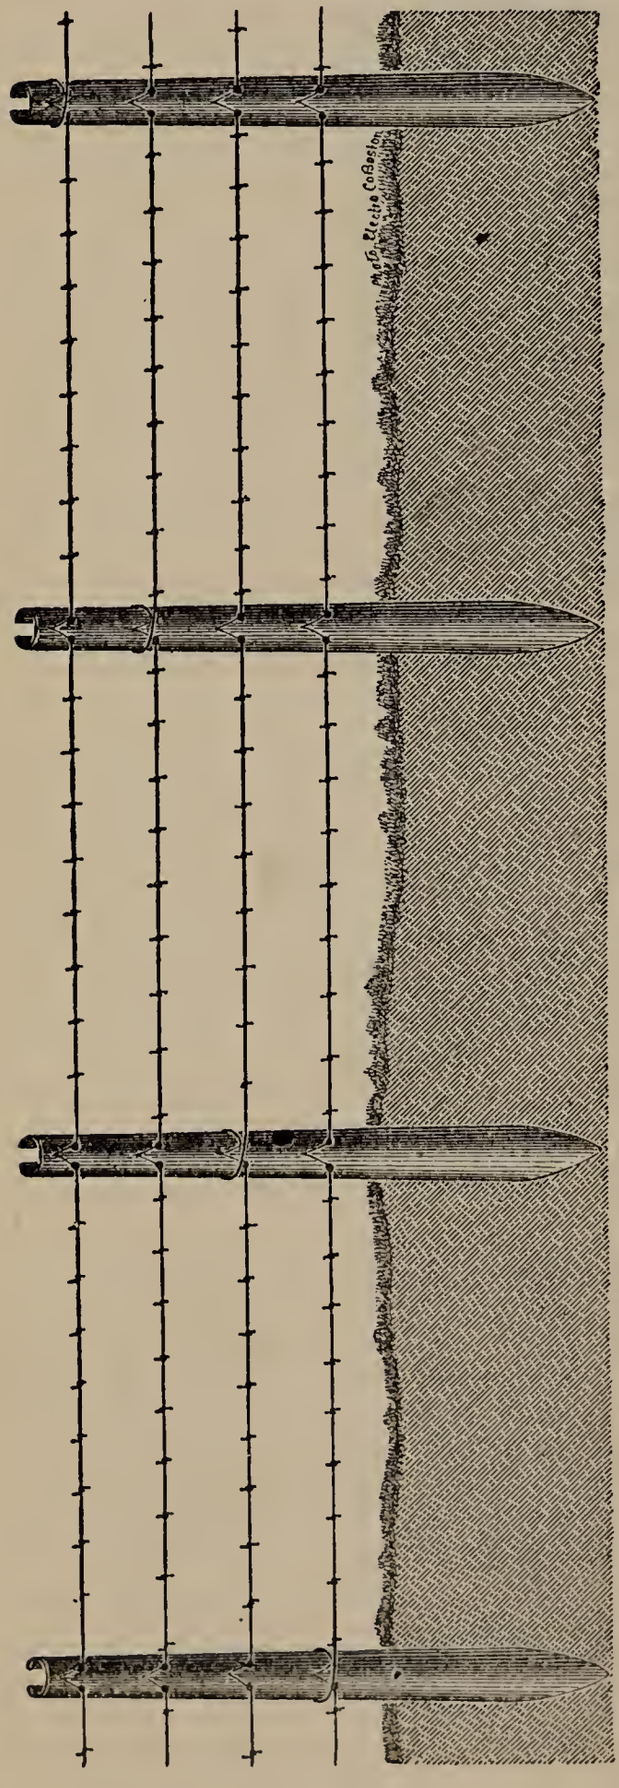
THE AMERICAN
Iron Post and Construction Co.,

OFFICE at 31 MILK STREET, BOSTON.



Manufactures a METALLIC POST FOR WIRE FENCES, possessing many great advantages over all metal posts hitherto made, among which are the following:

It is of Iron or Steel. It is protected from Rust by an Indestructible covering.

IT IS CHEAP.

It is driven into the ground—no digging of post holes.

IT WILL NOT BURN UP.

There are needed NO NAILS OR STAPLES for attaching the wire,—only sledge, wire and posts to put up the fence.

For RAILROADS a wire fence with this post is CHEAPEST and BEST.

For FARMERS it is the CHEAPEST and BEST.

For COUNTRY ROADS IT IS THE BEST, as it affords no place for weeds in summer, or for snow-drifts in winter.

IT IS ORNAMENTAL, and the best for yards: gardens, orchards and trellises.

IT will keep out cattle and boys. Flat barbed or plain wire can be used with this post.
